To All My Dear Patients:

It is with a great deal of pleasure that I announce the new owners of Fortuna Optometry, the Southern Humboldt Community Healthcare District. SoHum Health is working hard to provide high quality healthcare in Northern Mendocino and Southern Humboldt Counties. You may have noticed that SoHum Health is moving rapidly towards the groundbreaking of the new hospital in Garberville. Exciting doors will be opening in the coming years.

You may also know that I grew up in Southern Humboldt. I received my first contact lenses in Garberville and eye care changed my life. It cemented my desire to pursue a career in Optometry. 50 years later, I'm proud to be joining this high-quality organization working hard to improve healthcare in the area I grew up in and love.

The staff and I look forward to leading Fortuna Optometry out of the limitations of the past pandemic and into the future of modern rural healthcare. New doctors, a new Garberville practice, and a state-of-the-art mobile optometry clinic are just a few of the immediate plans. I look forward to seeing you at your next visit and continuing to serve your eye care needs.

Yours in service, **Dr. Alan French, OD**
